DNA Lab Pricing Structure

The following table shows the prices currently charged for DNA services and testing at MMI Genomics and Igenity. Order testing supplies and forms from NALF. Prices are subject to change without notice.

DNA Diagnostic Test	MMI Genomics	Igenity
Parentage verification & DNA typing	\$35	
Polled – stand-alone	\$75	\$75
Coat color – stand-alone	\$34	
F94L myostatin - stand-alone	\$42	\$28
AM (arthrogryposis multiplex)	\$24 (1 to 19 head)	\$26
AM (arthrogryposis multiplex)	\$22 (20 to 99 head)	
Multi-sire testing – stand-alone	\$35	\$25
*Bundle – Coat color	\$34	
*Bundle – Polled	\$58	
*Bundle – F94L myostatin	\$33	
Beef profile		\$38
Coat color added to beef profile		\$5
Polled added to beef profile		\$50
F94L myostatin added to beef profile		\$15
Multi-sire testing added to beef profile		\$10
BVD PI added to beef profile		\$3
Feed efficiency added to beef profile (coming soon)		\$30

MMI Genomics: The prices shown apply when you submit samples on FTA cards. Add \$7 for hair, semen or tissue samples. Add a \$5 retrieval fee for using a stored sample. Add \$50 for rushed results. A \$15 charge applies for an indeterminate polled result.

*Bundled pricing applies only where a sample is submitted simultaneously for two or three applicable tests.

Igenity: Hair sample kits are available at no charge. 50 tissue-collection tags plus applicator - \$150. 50 RFID tissue-collection tags - \$225. Order testing supplies and forms from NALF.
