How to post on NALF.org:

• Go to the “Marketing” drop down menu on NALF.org.

• You will then have the option to click either “feeder cattle for sale” or “commercial females for sale.”

• After you click one of those options, you will be directed to a page where it shows all the commercial female and feeder cattle listings, click “to submit an AD click here.”

• Be sure to complete all fields, the more information, the better, then click “submit” at the bottom of the page.

• NALF staff will have to approve your request before it gets posted on the page.

Once posted on the website, the ad will stay active for 90 days. Listings can be sorted by clicking on any of the read header columns. Be sure to list your cattle well in advance of the projected sale or listed delivery date to give buyers an opportunity to contact you personally in regard to your listing.

If you need assistance in placing your listing on the marketing site, do not hesitate to contact Mallory Blunier at Mallory@NALF.org or 303-220-1639.
