

## LIMDATA ASSIST

Are you struggling to keep up on registrations, transfers, and data entry? Would you like to spend less time on the computer and more time outside with your herd? The North American Limousin Foundation is excited to offer a new service available to all active members: LimData Assist. LimData Assist is a recording service providing **data entry** for anything from registrations and calf recording to sale transfers, performance updates, DNA requests, and LIMS enrollments, billed on a single, per-head basis. Breeders will provide NALF with access to records (via Excel, CattleMax, or any other form of record keeping that you utilize) that will help to streamline the data entry process from the ranch directly into Digital Beef. This benefits both the breeder and the association to ensure accuracy of information as well as correct splitting of contemporary groups. Additionally, it will ensure that all records are input in a timely and efficient manner.

### Pricing Structure

#Hd	Handwritten/manual	Electronic
< 100	\$10/hd	\$6/hd
101-250	\$8/hd	\$4/hd
251-500	\$7/hd	\$3/hd
> 500	\$6/hd	\$2/hd

\*Per head pricing includes **data entry** for recording of registration, performance updates, transfer of the animal, and any necessary corrections per head, per year on an annual basis (does not include cost of registration or transfer)

\*Commercial females can be integrated into the herd for the same price as above

\*Work in another breed association will be \$150 per breed association outside of NALF

\*In-person assistance as staff availability allows for \$300 per day plus travel expenses

\*If you have a special project outside of what is listed, please contact us for pricing

\*Please allow staff at least two weeks from the date of submission to enter records into Digital Beef.

\*Data submitted without respect to the two week turnaround time will incur a \$25 per head fee
